

AHA- Heartsaver First Aid CPR AED

Nearly 80% of sudden cardiac arrests occur outside the hospital & approximately 4 million of injuries and illness occur annually on the workplace.

Heartsaver First Aid CPR AED is a classroom, video-based, instructor-led course that teaches students critical skills needed to respond to & manage a first aid, choking or sudden cardiac arrest emergency in the first few minutes until Emergency Medical Services (EMS) arrives. In this course, students learn skills such as how to treat bleeding, sprains, broken bones, shock & other first aid emergencies

Course Description

- First Aid basics
- Medical emergencies
- Injury emergencies
- Environmental emergencies
- Adult CPR & AED use
- Relieve choking

Mode of Instruction:

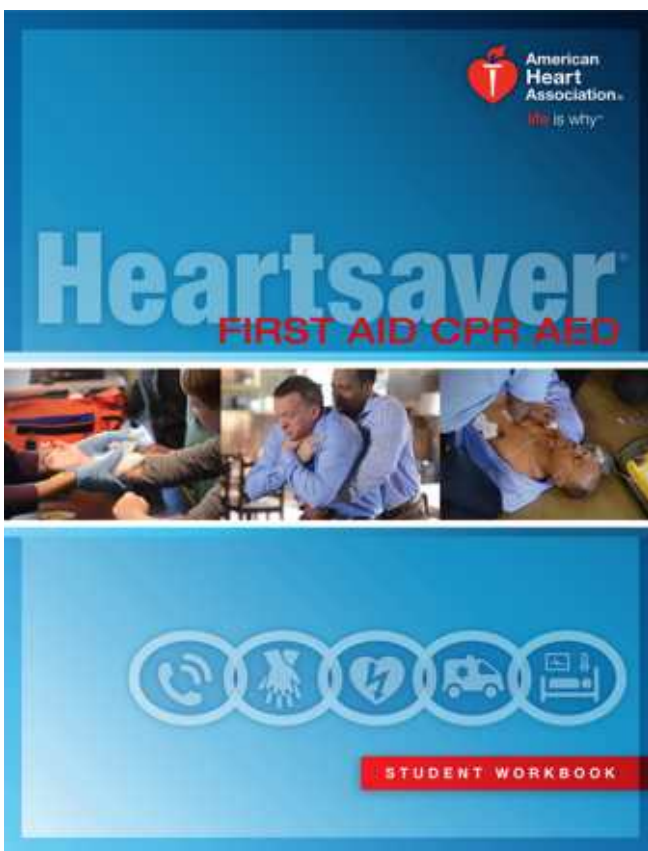

- Instructor led training supported by Audio visual training aids
- Practice While Watching (PWW)
- Hands on practice on manikins and simulators

Highlights

Duration: 8 Hours

Certification: American Heart Association

Validity: 2 Years

Intended Audience

This course is for anyone with limited or no medical training who needs a rescue card in first aid to meet job, regulator or other requirements.
