

Serious and life-threatening medical emergencies often cause oxygen to be depleted in the body leaving the victim at risk for shock. The ASHI Emergency Oxygen program focuses on administering emergency oxygen to breathing and non-breathing persons, emergency oxygen delivery systems, and integrating pulse oximetry.

Intended Audience

Nurses, EMTs, Paramedics, Emergency Response Team, Sports Teachers, River Rafting Guides, Expedition Team, Factory Staff and any individual or employee who desire or are required to be trained on emergency oxygen.

Course Description

- The Case for Emergency Oxygen
- Integrating the Use of Emergency Oxygen
- Emergency Oxygen Delivery Systems
- Integrating Pulse Oximetry with Emergency Oxygen
- Oxygen Delivery for a Breathing Person
- Oxygen Delivery for a Non-breathing Person
- After - use Considerations
- Safety Precautions

Mode of Instruction:

- Audio visuals classroom training
- Hands on practice

Highlights

Course Duration: 2 Hours

Certification: American Safety & Health Institute

Validity: 2 Years
